Expected date for contract/PO award.	30 August 2023

Issued by: IOM Office for Mauritius & Seychelles

Signature:

Terms of Reference - MU10.RFQ2023-04

Title: Consultancy to conduct a feasibility study on the development of innovative financing instruments to catalyze diaspora finance towards green and blue economy in Mauritius

Duty Station: Homebased/Mauritius

Type of contract: **Service Agreement - Consultancy**

Estimated Start Date: September 2023 - **Republication**

Established in 1951, IOM is the leading inter-governmental organization in the field of migration and works closely with governmental, intergovernmental and non-governmental partners. IOM is dedicated to promoting humane and orderly migration for the benefit of all. It does so by providing services and advice to governments and migrants.

Context:

Since May 2022, the United Nations Country Team (UNCT) in Mauritius is implementing a 2-year Joint Programme (JP) entitled “*Contributing to establish an enabling environment to promote sustainable Green and Blue Economy in Mauritius and Seychelles*”. The JP endeavors to support Mauritius and Seychelles to advance on their green and blue economy agenda by activating integrated, gender-sensitive and evidence-based policy and financing levers that are catalytic. In particular, the Joint Programme will contribute to strengthening the policy framework, establishing financial mechanisms, and availing information needed for the private and public sectors to invest in the green and blue economy to accelerate the realization of the SDGs. Adequate policies and access to critical information are expected to have catalytic effects leading to increase in green and blue economic investments building on collaborations between governments, the UNCT, and development partners.

For Mauritius, the joint programme focuses on renewable energy and the overall strategic result is to create the enabling environment to catalyze financing and investments in the ocean renewable energy sector in Mauritius. As such, the JP contributes to creating the adequate enabling environment for the deployment of ocean renewable energy technologies to achieve the 2030 renewable energy target. The availability of technical and economic analysis on the potential of ocean renewables, the update of the renewable energy policy framework and the development of necessary financing mechanisms will help catalyze the necessary investments from both the public and the private sector in the ocean renewable energy sector.

The first outcome of the JP relates to “Integrated gender sensitive and evidence based multi-sectoral policies to accelerate deployment of renewable energy in Mauritius are in place”. Related to this outcome is the intent to achieve “Output 1.2: Financing Strategy for the deployment of Ocean Renewable Energy in Mauritius is developed and gender-responsive”. Under this output, IOM will support the Government of Mauritius by way of the conduct a feasibility study on the use of innovative financing instruments to catalyze diaspora finance towards renewable energy projects in Mauritius. The study is also expected to make recommendations to address barriers hindering potential women participation.

Core Functions / Responsibilities:

Purpose and Scope of the Assignment

The consultancy is being undertaken within the “*Contributing to establish an enabling environment to promote sustainable Green and Blue Economy in Mauritius and Seychelles*” joint programme, funded by the Joint SDG Fund. The objective of this consultancy is to conduct a study to assess the feasibility of developing innovative financing instruments to catalyze diaspora finance towards green and blue economy projects in Mauritius.

The assignment is undertaken under the overall supervision of the IOM Chief of Mission for Mauritius and Seychelles, and direct supervision of the IOM Programme Coordinator, in coordination with IOM National Programme & Policy Officer. The assignment shall be conducted in close coordination with the Prime Minister’s Office, the Ministry of Foreign Affairs, Regional Integration and International Trade and the Diaspora Engagement Technical Working Group.

Tangible and measurable outputs of the work assignment

The Service Provider is expected to perform the following tasks / activities:

- Conduct an initial meeting with the IOM team to discuss about the context, available documentation and the consultancy process as well as to clarify expectations.
- Prepare an **inception report**, outlining the methodology to be used, breakdown of work, the timelines, and an overview of stakeholders to be engaged with during the assignment and structure of the report. The report will be reviewed and validated by IOM.
- Using appropriate methods and a participatory approach, conduct an assessment of existing financing instruments, schemes and tools (public and private) that are available to support renewable energy projects in Mauritius and identify related financing and investment gaps.
- Undertake an assessment of significant projects and initiatives both philanthropic and business oriented, undertaken by the Mauritian diaspora in sectors of energy, tourism, agriculture, fisheries and marine and coastal resources.
- Hold consultations with relevant stakeholders to understand their views and expectation on diaspora financing in green and blue economy, and based on their views devise

recommendations on the mechanisms that should be put in place to encourage and facilitate their contribution.

- Assess the legal framework around diaspora financing in Mauritius.
- Identify and analyze international best practices and innovative financing instruments and tools that have the potential to catalyze diaspora finance towards renewable energy projects in Mauritius, above all in the ocean renewable energy sector.
- Identify key opportunities in the prioritized sectors where innovative finance where diaspora engagement can be applicable.
- Identify main instruments for diaspora financing for Mauritius with clear vision for financing for SDGs (such as diaspora bonds, migrants' remittances, portfolio investments, etc.).
- Identify actionable targeted mechanisms for financing initiatives contributing to strengthening green and blue economy in Mauritius.
- Produce a set of recommendations on the potential application and support the design of specific innovative financing instruments to accelerate diaspora finance towards ocean renewable energy projects in Mauritius. These recommendations should be accompanied by analyses showing economic, legal, institutional, operational, technical and technological viability of the financing solutions proposed as well as policies and guidelines as to the effective deployment of each financing instrument/ tool in the Mauritius context. Present the key elements of the inception report to key stakeholders at an inception meeting.
- Develop and submit a **first draft feasibility study report** (using IOM report template) to IOM
- Incorporate comments and submit a **second draft report**.
- **Present the draft report** to stakeholders for technical review.
- **Submit a final report** incorporating all comments and inputs, to be approved by IOM.

All documents and tasks are to be produced and delivered in English language.

Timeline

This assignment is expected to start tentatively in September 2023, but the actual timeline is subject to change based on the date the agreement is signed between IOM and the Consultant. The assignment shall be completed no later than February 2024.

Deliverables

1. Inception report
2. First draft feasibility study report
3. Second draft report, with comments incorporated.
4. Presentation of the draft report to stakeholders
5. Final report

Required Qualifications and Experience

IOM is seeking applications from Service Providers (consultancy firms). The (lead) consultant should have a minimum of the following qualifications and experience:

Education

- Advanced university degree in Finance, Economics, Development finance or other relevant disciplines

Experience & Skills

- At least 5 years' proven experience in development finance / innovative finance, preferably in development of financing instruments, tools and mechanisms for the renewable energy sector
- Experience in policymaking, particularly in the area of diaspora financing and investment
- Experience in developing financing solutions to facilitate/accelerate diaspora financing and

investment

- Minimum of 5 years of relevant professional experience in academia, research institutes, think tanks, governmental, inter-governmental, or non-governmental organizations working on diaspora engagement;
- Experience in facilitating working groups and discussion and actively engaging members;
- Working experience with senior officials within government, inter-governmental, and nongovernmental organizations.
- Proven experience in developing Policy, particularly to subject related to diaspora engagement.

Languages

Fluency in English is required.

Required Competencies

Values
