SECTION 5: TERMS OF REFERENCE

EVALUATION TERMS OF REFERENCE

IOM Mozambique Country Strategy Evaluation

Commissioned by IOM Mozambique, Maputo CO

Managed by: The Deputy Chief of Mission supported by MEAL/ Reporting Officer (PSU).

I. Evaluation Context

This evaluation will assess the performance of the IOM Country Strategy in Mozambique 2021 – 2023 and provide considerations/recommendations to inform the development of the new IOM Country Strategy 2024-2028. The mission in Mozambique intends to include periodic evaluation of its strategy to enable consistent assessment of its efforts towards addressing the migration and displacement-related challenges in the country in support of the Government of Mozambique. This is the first evaluation conducted for the purpose of providing strategic insight into the operations and performance of the mission as detailed in the mission’s country strategy. The evaluation will be summative as it will consider IOM’s actions and interventions under the current strategy document and formative, as its findings and recommendations will form the basis for future actions and strategies and the development of future country strategies.

The IOM Country Strategy for Mozambique in Context

The strategic mission of the IOM Country Strategy in Mozambique is to support the establishment of a *“Well-managed migration that is a catalyst for Mozambique’s sustainable development that benefits migrants, communities, and society alike.”*

The Vision of the Country’s Strategy is to be the *“Government of Mozambique’s key partner in continuously improving migration management and governance and safeguarding the dignity and protection of migrants and migration-affected communities.”*

The Strategy describes how IOM in Mozambique will deliver key results under its 15 focus areas and the strategic objectives under its three strategic priorities.

It details the strategic activities and approaches it will employ; ensuring that it remains internally and externally coherent and relevant with and to the standards and the needs and priorities of the Government of Mozambique.

The strategic priorities of the Country strategy and corresponding strategic objectives are.

[Strategic Priority 1 \(SP1\)](#) – “Migration Governance with the Strategic objective to Contribute to the Government of Mozambique’s efforts to enable safe, orderly, humane, and regular migration.” SP1 has six focus areas around which IOM will support the Government of Mozambique to link migration and development policies, mainstream a whole-of-government and whole-of-society approach to manage migration, and forge strong partnerships internally and internationally to capitalize on safe, orderly, humane, and regular migration for the benefit of all.

These focus areas are (1) Migration Data Research and Policy; (2) Migration and Health; (3) Immigration and Border Management; (4) Labour Migration and Human Development; (5) Migrant Protection and Assistance; and (6) Migration, Environment, and Climate Change.

Strategic Priority 2 (SP2) – Promoting Resilience and Durable Solutions with the strategic objective to “Empower communities in Mozambique to be safe and stable as well as prepared to withstand and quickly recover from natural and human-induced shocks.” Under SP2 IOM will support communities to become resilient, address the negative drivers of migration such as natural disasters, climate change and insecurity, prevent future losses, and strengthen self-recovery capacities by focusing on four key areas. These focus areas under SP2 are (1) Durable solutions for recovering communities; (2) Peacebuilding, community stabilization, disarmament, demobilization, and reintegration; (3) Community engagement and policing; and (4) Disaster risk reduction.

Strategic Priority 3 (SP3) – Humanitarian Preparedness and Response with the strategic objective to “Support migrants, displaced persons, and communities affected by crisis in accordance with humanitarian principles”. The country strategy has defined five focus areas that will help the mission support the Government of Mozambique and other partners to prepare for and swiftly respond to the most immediate humanitarian needs of persons affected by crises, ensuring responses are conducive to early recovery. These five focus areas under SP3 are (1) Camp Coordination and Camp Management; (2) Shelter and NFIs in Emergencies (3) Protection and MHPSS in Emergencies; (4) Health in Emergencies; and (5) Displacement Tracking Matrix.

The key results expected from the implementation of this strategy from each of the 15 focus areas are captured in the Country Strategy’s logical framework in Annex 1.

II. Evaluation Purpose

The primary purpose of the evaluation is to provide insight into the progress in the implementation of the “IOM Country Strategy for Mozambique.” The evaluation will assess the effectiveness of approaches employed to meet the key results of each of the focus areas of the three strategic priorities of the country’s strategy. The evaluation will attempt to create a cause-and-effect relationship between the strategic activities employed for each of the fifteen focus areas and the strategic objectives of each of their corresponding strategic priorities leading to the achievement of well-managed migration policies and systems that catalysed sustainable development and contribute to fulfilling the rights of migrants for the benefits migrants, communities, and society.

The evaluation will assess the extent to which each key result has been achieved and provide insight into all contributory actions that have contributed to their achievement or their non-achievement.

It will assess the implementation of policies for migration governance, the promotion of resilience and durable solutions, and humanitarian preparedness and response in a bid to provide insight into their implementation status and provide detailed recommendations for incorporation into present and future projects’ review and planning.

The evaluation will measure the mission’s performance in meeting the migration management needs of Mozambique through the assessment of the relevance of key results, strategic objective, and activities to the priorities and needs of Mozambique. It will look at the internal and external coherence of the mission’s approaches and actions with the country and mission-wide standards and how efficiently resources are managed toward achieving the country’s strategic priorities. The effectiveness of the mission’s approach and the likelihood of these approaches achieving its strategic mission will also be a focus of the evaluation.

III. Evaluation Scope

This evaluation will cover the length and breadth of the country's strategy as contained in the *"IOM Country Strategy for Mozambique 2021 – 2023"* and provide considerations to inform the development of the IOM country strategy 2024-2028. It will cover all programs and their associated provinces where they are being implemented. All areas where IOM works with the Government of Mozambique will be a priority for this evaluation. This includes Migration Health, Migrant Protection and Assistance, Assisted Voluntary Return and Reintegration, Peacebuilding and Community Resilience, Immigration and Border Management, Migration Research, and multi-sectoral emergency and recovery programming related to cyclones Idai and Kenneth. The evaluation will also cover the displacement in northern Mozambique due to the situation of insecurity in Cabo Delgado province and all other technical support and assistance provided to the Government of IOM.

Representatives of direct project beneficiary institutions, project implementation collaborators and counterpart partners, and other relevant stakeholder institutions directly or indirectly benefiting from or involved in project implementation will be identified to participate in the evaluation as either respondents or members of the evaluation team in the spirit of participatory evaluation.

The evaluation will also seek to derive recommendations for areas where support may be needed and can be provided by IOM or other donors and implementing agencies in the future.

IV. Evaluation Criteria

In response to the evaluation purpose as stated above, the evaluation will investigate four of the six OECD/DAC evaluation criteria. They are relevance, coherence, effectiveness, and efficiency. The evaluation will also investigate the likelihood of achieving impact attributed to the mission activities in Mozambique. In addition to these, the integration of the following cross-cutting themes in IOM's project planning and implementation will be investigated: gender, youth, AAP, disability, PSEA, HDPN.

The IOM Country Strategy for Mozambique provides some standard approaches for achieving its mission to oversee well-managed migration that is a catalyst for Mozambique's sustainable development that benefits migrants, communities, and society alike, and its vision to be the Government of Mozambique's key partner in continuously improving migration management and governance and safeguarding the dignity and protection of migrants and migration-affected communities. These approaches will be assessed for their coherence and effectiveness. Approaches that will be included in the evaluation's lens will include: Whole-of-government and Whole-of-society Approaches, Evidence-based Programming, Humanitarian–Development–Peace Nexus (HDPN), and Integrated Multisectoral Programming.

Bearing the understanding that the faster and more efficiently humanitarian aid providers are able to identify, collect, distill, analyze, and manage the vast corpus of what they need to know, the more effectively they can plan for and respond to disasters and complex emergencies and the more lives are potentially saved, the evaluation will also assess the capacity of the mission in Mozambique's knowledge management system.

V. Evaluation Questions

The evaluation will provide insights that respond to evaluation questions relating to the four selected OECD/DAC evaluation criteria, the cross-cutting themes, and the project management approaches adopted by the mission. A summary of evaluation questions that will be considered in the design, planning, and implementation of the evaluation is shown in Table 1 below.

The incumbent will develop an evaluation matrix that comprises the final evaluation questions, indicators, and data sources as part of the inception report, which will constitute part of his deliverables.

VI. Evaluation Methodology

The evaluation will employ a theory-driven systems methodology underpinning a bespoke Theory of Change (ToC) developed specifically for this process. This ToC will take into account the key results, strategic objectives, and assumptions of the country. This framework will facilitate a comprehensive analysis of the degree to which IOM's collaborators and partners have actualized the vision of the 2021-2023 Country Strategy and will also provide robust recommendations for the 2024-2028 strategy.

Mixed methods of data collection that will include qualitative and quantitative techniques will be employed through surveys and interviews with key stakeholders. This will be enhanced by a desk review of relevant program documents, project evaluations, and assessments conducted from 2021 to date. Evaluations, assessments, audits, and surveys prior to 2021 will be used as baselines to compare IOM's efforts prior to the development of the Country Strategy 2021 – 2023.

The desk review will also include IOM Mozambique's programme and financial reporting systems. This will cover programmes implemented by Results, and trends emerging from the desk review will be validated and complemented with qualitative and quantitative data.

The evaluation will adopt a multi-stakeholder approach to gather the views and perspectives of relevant stakeholders through semi-structured interviews and group discussions. Stakeholders that will be engaged in this evaluation will include key staff of IOM's mission in Mozambique (including programme and finance, Human Resources (HR), and Procurement admin staff members), representatives and key informants of stakeholder institutions, partners, and collaborators working with IOM in Mozambique, direct beneficiaries of IOM's actions by the focus areas of the interventions that they received. Evaluation participants will also include consultants and representatives of consulting firms that worked with IOM over the years.

The evaluation will be designed to triangulate, for testing assumptions, accelerators, and inhibitors identified in the evaluations ToC, the experiences and opinions of different categories of stakeholders, as well as supporting narratives. Primary and secondary data collected and synthesized through surveys, interviews, and desk reviews will be coded, and pieces of evidence will be triangulated to test accuracy and consistency to ensure that the findings therein are credible.

VII. Ethics, Norms, and Standards

IOM abides by the Norms and Standards of the UNEG and expects all stakeholders to be familiar with the Ethical guidelines for the evaluation of UNEG and the consultant with the UNEG code of conduct for evaluation in the UN System. UNEG documents are available under IOM's Evaluation Webpage, www.iom.int/evaluation. The UNEG Norms and Standards will also be a key component of the quality management system.

VIII. Evaluation Deliverables in Phases

The evaluation will go through four phases.

Phase 1: Preparatory and inception phase - This phase will involve consultation with relevant stakeholders, inception meeting(s), and identification of and provision of relevant documents for desk review.

Phase 2: Desk review and development of inception report - This phase will involve a desk review that includes an analysis of the financial flow and programmatic trend analysis. Labeling of data for the synthesis of past evaluations, audits, and programme documents to establish the direction of the Country Strategy's implementation logic will also take place in this phase. The ToC at evaluation that will inform the evaluation's data analysis will also be produced at this phase. The desk review will provide an assessment of the quality of the secondary data available for use during the evaluation. It will also help identify data gaps that can be addressed with primary data to be collected during data collection.

This phase will also involve the inception report development. The inception report is one of the key deliverables of the evaluation and will include the desk review process, evaluation framework/matrix, and data collection tools and guidelines, along with the evaluation's methodology and resource requirements.

Phase 3: Data collection/field work - Data collectors will be identified and trained on the objective scope and process of data collection. This phase will include a field test to test the evaluation processes and further strengthen the data collectors' capacity for quality data collection and management.

Phase 4: Data analysis and report generation – This phase will include the triangulation of data, data analysis, and synthesis in line with the evaluation questions contained in the inception report. The phase will also include the generation of a preliminary analysis and the final report.

IX. Specification of Roles and Responsibilities

The responsibilities of the external consultant shall be categorized in four phases as follow:

Phase 1: Preparatory and Inception Phase

- Engage in consultations with relevant stakeholders to understand the scope and requirements of the evaluation.
- Participate in inception meeting(s) to align on objectives and deliverables.
- Assist in the identification and provision of key documents required for the desk review.

Phase 2: Desk Review and Development of Inception Report

- Conduct a comprehensive desk review, focusing on financial flow and programmatic trend analysis.
- Label and synthesize data from past evaluations, audits, and program documents to determine the Country Strategy's implementation logic.
- Collaborate in producing the Theory of Change (ToC) at evaluation, which will guide the data analysis.

- Assess the quality of secondary data and identify gaps that can be supplemented by primary data collection.
- Contribute to the inception report development, including refining the evaluation framework/matrix, designing data collection tools, detailing the evaluation's methodology, and outlining resource requirements.

- 4.4 The Service Provider expressly acknowledges and agrees that breach by the Service Provider, or by any of the Service Provider's employees, contractors, subcontractors or agents, of any provision contained in Articles 4.1, 4.2 or 4.3 of this Agreement constitutes a material breach of this Agreement and shall entitle IOM to terminate this Agreement immediately on written notice without liability. In the event that IOM determines, whether through an investigation or otherwise, that such a breach has occurred then, in addition to its right to terminate the Agreement, IOM shall be entitled to recover from the Service Provider all losses suffered by IOM in connection with such breach.

5. Assignment and Subcontracting

- 5.1 The Service Provider shall not assign or subcontract the activities under this Agreement in whole or in part, unless agreed in writing in advance by IOM. Any subcontract entered into by the Service Provider without approval in writing by IOM may be cause for termination of the Agreement.
- 5.2 Notwithstanding such written approval from IOM, the Service Provider shall not be relieved of any liability or obligation under this Agreement nor shall it create any contractual relation between any subcontractor and IOM. The Service Provider shall include in an agreement with a subcontractor all provisions in this Agreement that are applicable to a subcontractor, including relevant Warranties and Special Provisions. The Service Provider remains liable as a primary obligor under this Agreement, and it shall be directly responsible to IOM for any faulty performance under any subcontract. The subcontractor shall have no cause of action against IOM for any breach of the subcontract.

6. Delays, Defaults and Force Majeure

- 6.1 Time is of the essence in the performance of this Agreement. If the Service Provider fails to provide the Services within the times agreed to in the Agreement, IOM shall, without prejudice to other remedies under this Agreement, be entitled to deduct liquidated damages for delay. The amount of such liquidated damages shall be 0.1% of the value of the total Service Fee per day or part thereof up to a maximum of 10% of the Service Fee. IOM shall have the right to deduct such amount from the Service Provider's outstanding invoices, if any. Such liquidated damages shall only be applied when delay is caused solely by the default of the Service Provider. Acceptance of Services delivered late shall not be deemed a waiver of IOM's rights to hold the Service Provider liable for any loss and/or damage resulting therefrom, nor shall it act as a modification of the Service provider's obligation to perform further Services in accordance with the Agreement.
- 6.2 In case of failure by the Service Provider materially to perform under the terms and conditions of this Agreement, IOM may, after giving the Service Provider 30 days' written notice to perform and without prejudice to any other rights or remedies, terminate the Agreement with immediate effect without liability.
- 6.3 Neither Party will be liable for any delay in performing or failure to perform any of its obligations under this Agreement if such delay or failure is caused by force majeure, which means any unforeseeable and irresistible act of nature, any act of war (whether declared or not), invasion, revolution, insurrection, terrorism, blockade or embargo, strikes, Governmental or state

restrictions, natural disaster, epidemic, public health crisis, and any other circumstances which are not caused by nor within the control of the affected Party.

- 6.4 As soon as possible after the occurrence of a force majeure event which impacts the ability of the affected Party to comply with its obligations under this Agreement, the affected Party will give notice and full details in writing to the other Party of the existence of the force majeure event and the likelihood of delay. On receipt of such notice, the unaffected Party shall take such action as it reasonably considers appropriate or necessary in the circumstances, including granting to the affected Party a reasonable extension of time in which to perform its obligations. During the period of force majeure, the affected Party shall take all reasonable steps to minimize damages and resume performance.
- 6.5 IOM shall be entitled without liability to suspend or terminate the Agreement if the Service Provider is unable to perform its obligations under the Agreement by reason of force majeure. In the event of such suspension or termination, the provisions of Article 17 (Termination) shall apply.

7. Independent Contractor

The Service Provider, its employees and other personnel as well as its subcontractors and their personnel, if any, shall perform all Services under this Agreement as an independent contractor and not as an employee or agent of IOM.

8. Audit

The Service Provider agrees to maintain financial records, supporting documents, statistical records and all other records relevant to the Services in accordance with generally accepted accounting principles to sufficiently substantiate all direct and indirect costs of whatever nature involving transactions related to the provision of Services under this Agreement. The Service Provider shall make all such records available to IOM or IOM's designated representative at all reasonable times until the expiration of 7 (seven) years from the date of final payment, for inspection, audit, or reproduction. On request, employees of the Service Provider shall be available for interview.

9. Confidentiality

- 9.1 All information which comes into the Service Provider's possession or knowledge in connection with this Agreement is to be treated as strictly confidential. The Service Provider shall not communicate such information to any third party without the prior written approval of IOM. The Service Provider shall comply with IOM Data Protection Principles in the event that it collects, receives, uses, transfers, stores or otherwise processes any personal data in the performance of this Agreement. These obligations shall survive the expiration or termination of this Agreement.
- 9.2 Notwithstanding the previous paragraph, IOM may disclose information related to this Agreement, such as the name of the Service Provider and the value of the Agreement, the title of the contract/project, nature and purpose of the contract/project, name and locality/address of the Service Provider and the amount of the contract/project to the extent as required by IOM's donors or in relation to IOM's commitment to any initiative for transparency and accountability of funding received by IOM in accordance with the policies, instructions and regulations of IOM.

10. Intellectual Property

All intellectual property and other proprietary rights including, but not limited to, patents, copyrights, trademarks, and ownership of data resulting from the performance of the Services shall be vested in IOM, including, without any limitation, the rights to use, reproduce, adapt, publish and distribute any item or part thereof.

12. Dispute Resolution

12.1. Any dispute, controversy or claim arising out of or in relation to this Agreement, or the breach, termination or invalidity thereof, shall be settled amicably by negotiation between the Parties.

12.2 In the event that the dispute, controversy or claim has not been resolved by negotiation within 3 (three) months of receipt of the notice from one party of the existence of such dispute, controversy or claim, either Party may request that the dispute, controversy or claim is resolved by conciliation by one conciliator in accordance with the UNCITRAL Conciliation Rules of 1980. Article 16 of the UNCITRAL Conciliation Rules does not apply.

12.3 In the event that such conciliation is unsuccessful, either Party may submit the dispute, controversy or claim to arbitration no later than 3 (three) months following the date of termination of conciliation proceedings as per Article 15 of the UNCITRAL Conciliation Rules. The arbitration will be carried out in accordance with the 2010 UNCITRAL arbitration rules as adopted in 2013. The number of arbitrators shall be one and the language of arbitral proceedings shall be English, unless otherwise agreed by the Parties in writing. The arbitral tribunal shall have no authority to award punitive damages. The arbitral award will be final and binding.

12.4 The present Agreement as well as the arbitration agreement above shall be governed by the terms of the present Agreement and supplemented by internationally accepted general principles of law for the issues not covered by the Agreement, to the exclusion of any single national system of law that would defer the Agreement to the laws of any given jurisdiction. Internationally accepted general principles of law shall be deemed to include the UNIDROIT Principles of International Commercial Contracts. Dispute resolution shall be pursued confidentially by both Parties. This Article survives the expiration or termination of the present Agreement.

13. Use of IOM Name, Abbreviation and Emblem

The Service Provider shall not be entitled to use the name, abbreviation or emblem of IOM without IOM's prior written authorisation. The Service Provider acknowledges that use of the IOM name, abbreviation and emblem is strictly reserved for the official purposes of IOM and protected from unauthorized use by Article 6ter of the Paris Convention for the Protection of Industrial Property, revised in Stockholm in 1967 (828 UNTS 305 (1972)).

14. Status of IOM

Nothing in or relating to the Agreement shall be deemed a waiver, express or implied, of any of the privileges and immunities of the International Organization for Migration as an intergovernmental organization.

15. Indemnity

The Service Provider shall at all times defend, indemnify, and hold harmless IOM, its officers, employees, and agents from and against all losses, costs, damages and expenses (including legal fees and costs), claims, suits, proceedings, demands and liabilities of any kind or nature to the extent arising out of or resulting from acts or omissions of the Service Provider or its employees, officers, agents or subcontractors, in the performance of this Agreement. IOM shall promptly notify the Service Provider of any written claim, loss, or demand for which the Service Provider is responsible under this clause. This indemnity shall survive the expiration or termination of this Agreement.

16. Waiver

Failure by either Party to insist in any one or more instances on a strict performance of any of the provisions of this Agreement shall not constitute a waiver or relinquishment of the right to enforce the provisions of this Agreement in future instances, but this right shall continue and remain in full force and effect.

17. Termination

17.1 IOM may at any time suspend or terminate this Agreement, in whole or in part, with immediate effect, by providing written notice to the Service Provider, in any case where the mandate of IOM applicable to the performance of the Agreement or the funding of IOM applicable to the

Agreement is reduced or terminated. In addition, IOM may suspend or terminate the Agreement upon thirty (30) days' written notice without having to provide any justification.

- 17.2 In the event of termination of this Agreement, IOM will only pay for the Services completed in accordance with this Agreement, unless otherwise agreed in writing by the Parties. The Service Provider shall return to IOM any amounts paid in advance within 7 (seven) days from the notice of termination.
- 17.3 In the event of any termination of the Agreement, upon receipt of notice of termination, the Service Provider shall take immediate steps to bring the performance of any obligations under the Agreement to a close in a prompt and orderly manner, and in doing so, reduce expenses to a minimum, place no further subcontracts or orders for materials, services, or facilities, and terminate all subcontracts or orders to the extent they relate to the portion of the Agreement. Upon termination, the Service Provider shall waive any claims for damages including loss of anticipated profits on account thereof.
- 17.4 In the event of suspension of this Agreement, IOM will specify the scope of activities and/or deliverables that shall be suspended in writing. All other rights and obligations of this Agreement shall remain applicable during the period of suspension. IOM will notify the Service Provider in writing when the suspension is lifted and may modify the completion date. The Service Provider shall not be entitled to claim or receive any Service Fee or costs incurred during the period of suspension of this Agreement.
