### Organizational Context and Scope:

Sexual Exploitation and Abuse (SEA) by aid workers is a grave violation of human rights and IOM is committed to combat any kind of SEA by its staff, related personnel and partners.

IOM's zero tolerance policy also extends to IOM third party contracted staff, suppliers, service providers and implementing partners. With over 16,000 staff and over 6,000 related personnel, operating in 450 Offices, and 165 countries throughout the world, the impact of sexual exploitation and abuse on victims and within IOM's operating environments, and the reputational risk it poses for the Organization needs to be addressed and remains a key priority.

The prevention of and response to Sexual Exploitation and Abuse (PSEA) continues to gain momentum not only within the United Nations (UN) and Interagency Standing Committee (IASC) common systems but also amongst governments, institutional partners, media and the general public. Increased action is no longer a choice but a necessity, and the rights of the victim must be at the forefront.

Over the past decade, IOM has increasingly been seen as a strong player supporting the prevention and response to Sexual Exploitation and Abuse and Sexual Harassment within the UN, IASC, and amongst the humanitarian community. While significant progress has been made to prevent and respond to SEA within the Organization such as through the development of innovative PSEA trainings, the development of a misconduct platform to report SEA, and extensive interagency collaboration on PSEA, more needs to be done within country and at the programmatic level and the role of the PSEA Officer will support these efforts.

In 2021, IOM developed its strategic approach toward the prevention of and response to sexual exploitation and abuse and sexual harassment focusing on five priority areas: 1) Leadership and Organizational Culture; 2) Institutional Accountability and Transparency; 3) Capacity-Development, Training, and Communication; 4) Quality and Accessible Victim Assistance; 5) Partnership and Coordination.

Under the direct supervision of the IOM Chief of Mission and technical support from the PSEAH Unit and other experts, as well experts, the incumbent will be responsible for supporting and facilitating the technical oversight and day-to-day management of IOM's prevention of and response to sexual exploitation and abuse (PSEA) activities in South Africa. As the technical PSEA Focal Point in Country, the Project Officer (PSEA) will need to support the aspects of implementation of PSEA activities in direct

close coordination with the Chief of Mission, both internally and as an active member of the interagency PSEA Network. While the incumbent will support the PSEA agenda within the Country Office and will contribute technical inputs to PSEA within programming (special emphasis on but not limited to resettlement and health assessment programming), the accountability for PSEA remains with the Chief of Mission.
